LAMINATES

# THE POSSIBILITIES ARE ENDLESS

Ever since its inception, Greenlam has been a hallmark of exceptional artistry and unbridled passion for innovation and takes pride in being the pioneer of trends in surface solutions across the globe.

With two state-of-the-art manufacturing facilities and a combined output in excess of 15.62 million laminate sheets per annum, Greenlam laminates stand tall as among the top 3 manufacturers in the world.

A team of 3750+ employees and a network of over 14,000 partners in more than 100 countries, ensures that our design concepts reach architects, interior designers and discerning end customers who demand the latest leading products to transform their spaces.

As a people and planet positive company, Greenlam is committed to the environment, ensuring a minimal carbon footprint by ethically sourcing its raw material and carefully monitoring its systems. Its superior design, quality, systems and environmental commitment have been awarded the ISO 9001, ISO 14001, OHSAS 18001, Green Label, Green Guard and FSC certifications. Venturing beyond just a decorative piece of covering; Greenlam's surfacing solutions encapsulate the visual drama that transforms any setting, lending a sense of advanced realism of any space through patterns and textures inspired by the marvels of the World, while staying true to its efforts to preserve nature in its pristine form.

Say goodbye to fingerprint smudges. The Greenlam AFX collection of laminates has been specially treated to make the laminates impression-free, non-porous and hydro-repellant. The matte surface is scratch-resistant and can be easily wiped down to remove impurities and grease marks.

Sizes: 1300 x 3050 mm (4.25 x 10 ft)

Thickness: 0.80 mm

Recommended Applications: Shutters, Paneling, Table Top, Premium Retail Furniture & Fixtures and Doors

# OUR COMMITMENT TO QUALITY ASSURANCE

## Safe and Healthy Living alongside Greenlam Products

The entire range incorporates Safeguard Plus™, a revolutionary development that retards the growth of the vast majority of common bacteria. This means our products are ideal for laboratories and kindergartens, to offices and domestic environments.

## GREENGUARD Certification

**GREENLAM®** Laminates are classified under the Low Emitting Product category when measured for potentially harmful emissions. This is an assurance that our products are ideal for use in interior environments where air quality is vitally important.

## GREENGUARD Gold Certification

This certification, with a stricter criteria, means that **GREENLAM®** products are suitable for use in environments where children spend significant periods of time, including schools, daycares and healthcare facilities.

All **GREENLAM®** Laminates are certified by prestigious American body, NSF International, making them the safest laminates for human health. Our surfaces can be used in situations where they will have direct contact with food. "Our surfaces have also been tested in accordance with EC directive 1935 with regards to food safety. Our products were proved fully compliant through testing to the demanding EU Food Commission Regulation 10/2011 with successful testing to BSEN 1186-1:2002, BSEN 1186-3:2002 & BSEN 1186-14:2002".

The FSC certification is considered the "gold standard" designation for wood harvested from forests that are responsibly managed, socially beneficial, environmentally conscious and economically viable. If a product, like a piece of tropical hardwood furniture, is labeled as "FSC Certified", it means that the wood used in the piece and manufacturer that made it met the requirements of the forest stewardship Council. All products manufactured by **GREENLAM®** for this HPL collection are FSC certified.

**GREENLAM®** products have been awarded CE certification which is given to those manufacturers who declares that the product complies with the essential requirements of the relevant European health, safety and environmental protection legislation, in practice by many Product Directives. CE Marking on a product indicates to governmental officials that the product may be legally placed on the market in their country.

Launched in 1992, Singapore's Green Label is run and awarded by the not-for-profit Singapore Environment Council and is the country's leading environmental standard on most products except food, beverages, and pharmaceuticals. The scheme has certified more than 1,000 consumer and industrial products on the basis of reduced environmental impact. Green Label has certified Greenlam's standard and compact grade laminates as demonstrating a reduced impact on the environment.

# TECHNICAL SPECIFICATION

Above test results are applicable to all Greenlam laminates except metal or foil laminates

HGS = Horizontal General Purpose Standard

CLASS: 1 = Surface Damage 2 = Severe appearance alteration 3 = Moderate Change 4 = Slight change visible from certain angle 5 = No Change

Laminates featured in this catalogue are available in size 1220mm x 2440mm x 0.7mm unless otherwise stated.

**Note:**

The samples shown here are only indicative of the colour patterns and finishes available

QR codes scans in the catalog are only indicative of the full sheet view of the product, color and texture may vary from the actual product.

**Limited Warranty:**

Greenlam Industries Limited (GREENLAM®) warrants to the original buyer that (GREENLAM®) HPL will be free of defects, under normal, proper and intended usage. Within acceptable manufacturing specifications, buyer's remedy in a case of claims, as a result of defective HPL, shall be limited to only the replacement of HPL by (GREENLAM®)

**Trademark**

GREENLAM®, the GREENLAM® logos and Safeguard™ Plus are registered trademarks of Greenlam Industries Ltd. or its subsidiaries

**Change of Specification**

The company reserves the right to change the specifications at any time without prior notice, it is recommended that you request actual samples prior to specification.
